**INDEPENDENT AUDITOR'S REPORT**

Board of Directors  
Sacramento Tree Foundation  
Sacramento, California

**Report on the Financial Statements**

We have audited the accompanying financial statements of the Sacramento Tree Foundation, which comprise the statements of financial position as of June 30, 2021, and the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Sacramento Tree Foundation as of June 30, 2021 and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### NOTE 1 – ORGANIZATION AND PROGRAMS

The Sacramento Tree Foundation (the Foundation) is a nonprofit organization dedicated to building healthy, livable communities in the Sacramento area by growing the best regional urban forest in the nation. The Foundation is highly skilled at educating and engaging people of all ages and from all neighborhoods to plant, protect, and value trees.

The Foundation's goals are to optimize the benefits of trees throughout the region, create sustainable urban forests and build community-wide appreciation for the region's trees and urban forests.

On March 7, 2008, the Foundation launched a monumental community campaign to plant 5 million trees in the region to realize a net benefit of nearly \$7 billion over 40 years by significantly increasing energy efficiency, lowering air pollution levels, reducing storm water runoff, improving water quality, sequestering carbon and increasing property values.

The Foundation offers many programs and services that engage thousands of volunteers to plant and care for over 10,000 new trees a year. These programs teach thousands of students and adults the science, art, and joy of trees.

The Sacramento Shade program is a nationally recognized, 30-year partnership with the Sacramento Municipal Utility District. This partnership has enlisted 180,000+ citizens to plant and tend over 500,000 shade trees for summer energy savings. The Foundation's mitigation program, NATURE, works to restore, replenish and sustain the native flora and fauna of the Sacramento region by replanting and protecting native trees and woodlands with the help of community volunteers. Annually, this mitigation program plants over up to 1,500 trees and tends several thousand fledgling seedlings.

Science and research have been integral components of the Foundation's work since it began in 1982. The Foundation has become a state and national leader in the translation of the evidence base that links human health to urban greening. With support from funding from CalFire and the US Forest Service, the Foundation has been leading an innovative research project involving public health leaders, urban forest scientists, and GIS experts, to link extent of urban greening to health behaviors and outcomes. The Foundation's many programs and projects will help establish maximum tree cover throughout the region in order to capture and optimize the remarkable benefits of trees.

In July 2015, the Foundation was awarded a grant for Urban Wood Rescue. The goal of the Urban Wood Rescue program is to recover selected logs from Sacramento's urban forest for milling and reuse by area woodworkers. This program diverts logs that normally would have been sent to a land fill or bio-generation power plant. Urban Wood Rescue is funded by a Cal Fire Greenhouse Gas Recovery Grant through the year ending March 30, 2024.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE FISCAL YEARS ENDED JUNE 30, 2021 AND 2020

---

### NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

**Basis of accounting and financial statement presentation** - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America. The Foundation reports information regarding its financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions.

#### **Revenue Recognition**

Contributions are recognized in full when received or unconditionally promised. Unconditional contributions that are expected to be collected within one year are recorded at net realizable value. Unconditional contributions that are expected to be collected in more than one year are recorded at fair value, which is measured as the present value of their future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the contribution is received. Amortization of the discounts is included in contribution revenue.

All contributions are considered available for unrestricted use unless specifically restricted by donors for future periods or specific purposes. Donor-restricted amounts are reported as increases in net assets with donor restrictions. When a restriction expires (generally as time restrictions expire or the contributions are used for the restricted purpose) net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Restricted contributions whose restrictions are met in the same reporting period are shown as unrestricted contributions. Revenues from government grants and contracts are recognized when qualifying expenses are incurred. Revenues from events are recognized in the period the events take place.

Donated materials, equipment, and professional services are recorded as in-kind donations and recognized at the estimated fair value as of the date of donation or service. Contributed services that do not meet the criteria for recognition are not reflected in the financial statements. Contributed goods and services meeting the above criteria for recognition amounted to \$25,476 and \$22,212 for the years ended June 30, 2021 and 2020 and was for donated logs for the Urban Wood Rescue program, general tree donations, and supervision of volunteer labor.

#### **Cash and cash equivalents**

For financial statement purposes, the Foundation considers all investments with a maturity at purchase of three months or less to be cash equivalents, unless held for long term purposes.

The Foundation minimizes credit risk associated with cash by periodically evaluating the credit quality of its primary financial institution. The balance at times may exceed federally insured limits. The Foundation has not experienced any losses in such accounts and management believes the Foundation is not exposed to any significant credit risk related to cash.

#### **Grants and contracts receivable**

Grants and contracts receivable are stated at unpaid balances. Management has established an allowance for uncollectable receivables of \$23,000 and \$15,418 based on historical collections as of June 30, 2021 and 2020, respectively. Grants and contracts receivable are determined to be past due based on contractual terms.

# SACRAMENTO TREE FOUNDATION

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE FISCAL YEARS ENDED JUNE 30, 2021 AND 2020

---

#### NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### **Contributions receivable**

The Foundation records unconditional promises to give that are expected to be collected within one year at net realizable value. Unconditional promises to give expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the statements of activities. Management determines the allowance for contributions receivable based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Contributions receivable are written off when deemed uncollectible. Management believes that all receivables are collectable and no allowance was deemed necessary as of June 30, 2021 and 2020.

##### **Investments**

Consist of endowments pooled and managed by a community foundation, and are stated at fair value.

##### **Fair value measurements**

Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same -to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability):

Level 1 Inputs	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.
Level 2 Inputs	Inputs other than quoted prices in active markets that are observable either directly or indirectly.
Level 3 Inputs	Unobservable inputs for the asset or liability.

The Foundation's investments are part of a pooled fund held by Sacramento Region Community Foundation (see Note 9). Fair value is quoted by the Community Foundation and based on prices in active markets for the pooled investments as a whole. The pooled funds are classified as Level 3, since the Foundation cannot redeem its investment in the pool since the funds are invested in perpetuity.

##### **Inventory**

Is stated at the lower of cost or market using the retail inventory method (average cost) of recording costs. Inventory is valued based on average costing for individual species of tree. Inventory consists of donated trees for use in the Urban Wood Rescue program.

##### **Property and equipment**

Property and equipment in excess of \$500 are capitalized at cost for purchased assets and fair market value for donated assets. Depreciation is provided for using the straight-line method over the estimated service life of the assets.

# SACRAMENTO TREE FOUNDATION

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE FISCAL YEARS ENDED JUNE 30, 2021 AND 2020

---

#### **NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)**

##### **Deferred revenue**

Under the terms of its mitigation contracts, the Foundation records cash received prior to completion of work as deferred revenue and recognizes revenue over a period of three years. The Foundation is required to replace trees that die within three years of planting and is also required to provide irrigation to the site of the replanting if none is available. The Foundation recognizes these costs as incurred.

##### **Functional allocation of expenses**

The costs of providing the program and supporting services have been summarized on a functional basis in the statement of activities and of functional expenses. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited. The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are primarily allocated include salaries and wages, professional services, occupancy, equipment and supplies, computer services, insurance, meetings and conferences, staff development and fees, which are allocated based on employee time and effort; all other expenses, not specifically identifiable to a specific program, are also allocated based on employee time and effort.

##### **Income taxes**

The Foundation is a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code and Section 23701(d) of the California Revenue and Taxation Code. Accordingly, no provision has been made for income taxes.

##### **Use of estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Significant estimates include the valuation of donated inventory, investments, and receivables; the estimated useful lives of property and equipment; and the functional allocation of expenses. Accordingly, actual results could differ from those estimates.

##### **Recent accounting pronouncements**

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). The new accounting standard develops a common standard that will remove inconsistencies in revenue requirements, improve comparability of revenue recognition practices, provide more useful information to users of financial statements and simplify the preparation of financial statements. Application of this statement is effective for the year ending June 30, 2021. The Foundation is currently evaluating the impact this pronouncement will have on the financial statements. The ASU has been applied to the period presented.

In June 2018, the FASB issued ASU 2018-08, Topic 958, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made. The new accounting standard clarifies and improves the guidance for (1) evaluating whether transactions should be accounted for as contributions within the scope of Topic 958 or as exchange transactions subject to other guidance and (2) determining whether a contribution is conditional. Application of this statement is effective for transactions in which the entity serves as the resource recipient for the year ending June 30, 2021. The ASU has been applied to the period presented.

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE FISCAL YEARS ENDED JUNE 30, 2021 AND 2020

---

#### NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

For transactions in which the entity serves as the resource provider, the statement is effective for the year ending June 30, 2021. The Foundation is currently evaluating the impact this pronouncement will have on the financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The new accounting standard requires lessees to recognize a lease liability measured on a discounted basis and a right-of-use asset for all leases with terms longer than 12 months. Application of this statement is effective for the year ending June 30, 2022. The Foundation is currently evaluating the impact this pronouncement will have on the financial statements.

#### NOTE 3 – LIQUIDITY AND AVAILABILITY OF RESOURCES

The Foundation's financial assets available within one year of the statement of financial position date for general expenditure are as follows as of June 30, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Financial assets at year end:		
Cash and cash equivalents	\$ 2,167,078	\$ 1,276,482

Total financial assets available for general expenditures within one year	<u>\$ 2,356,993</u>	<u>\$ 1,663,417</u>

The Foundation has made significant improvements in its billing and collections from grant and contract funding and now exceeds its working capital policy goal of maintaining enough cash to cover three months of expenditures. During the initial COVID lockdown, the Foundation applied for a payroll protection program (PPP) loan and received \$308,214 in PPP Funds to offset the cost of non-reimbursable payroll during the lockdown. The Foundation has been forgiven 100% of the proceeds in December 2020.

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE FISCAL YEARS ENDED JUNE 30, 2021 AND 2020

#### NOTE 8 – LEASE AGREEMENTS (Continued)

The Foundation entered into a long term non-cancelable sublease agreement in 2017. The agreement was renewed in July 2019 and expires in June 2022. Total revenue received under this lease was \$11,433 and \$10,800 for the years ended June 30, 2021 and 2020, respectively.

Year ending June 30:

2022	\$ 11,776
Total	<u>\$ 11,776</u>

#### NOTE 9 – NET ASSETS WITH RESTRICTIONS

Net assets with donor restrictions are restricted for the following purposes as of June 30, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Hamani	\$ 6,084	\$ 227,817
Meadowview Canopy	1,200	1,200

SAK02	1,561	2,140
Evergreen	<u>50,000</u>	<u>-</u>
Total	<u>\$ 60,408</u>	<u>\$ 252,720</u>

Net assets held in perpetuity at June 30, 2021 and 2020 consist of funds invested with the Sacramento Region Community Foundation (Community Foundation) based on an endowed agency fund agreement made with the Foundation to provide funds for planning, care and protection of the Sacramento region's urban forest. The Foundation classifies as net assets held in perpetuity (a) the original value of gifts donated to the endowment; (b) board approved transfers of funds to the Community Foundation to be invested in perpetuity, and (c) the accumulated unrealized appreciation and depreciation of endowment investments less the annual spendable amount.

#### Endowment Fund

The Foundation's endowment includes donor-restricted contributions and funds that were transferred by the Foundation to the Community Foundation. The Community Foundation charges an annual fee of 1.5% to manage the assets of the endowment and calculates amounts that are spendable by the Foundation under the agreement.

**SACRAMENTO TREE FOUNDATION**

**NOTES TO THE FINANCIAL STATEMENTS**

**FOR THE FISCAL YEARS ENDED JUNE 30, 2021 AND 2020**

**NOTE 9 – NET ASSETS WITH RESTRICTIONS (Continued)**

*Investment Return Objectives, Risk Parameters and Strategies* - The Foundation's endowed agency fund is administered in accordance with the policies of the Community Foundation per the terms of the agreement. The Community Foundation's investment policy relies on a total return perspective in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Community Foundation uses a diversified asset allocation based on core-satellite strategy to achieve its long-term objectives within prudent risk constraints.

*Spending Policy*- The spendable amount of endowed funds is determined by the Community Foundation. The annual dollar amount is determined by calculating the rolling average fair market value of the endowed funds over the previous 12 quarters. This rolling average is then multiplied by the current spending percentage to arrive at the spendable amount. The Community Foundation reviews its spending policy annually, and may increase or decrease the percentage available to spend. For the years ended June 30, 2021 **and 2020** the spending percentage was set at 4%.

Changes in the endowment net assets as of June 30, 2021 are shown as follows:

	Net assets without donor restrictions	Net assets held in perpetuity	Total
Endowment net assets - beginning of year	\$ 3,731	\$ 95,149	\$ 98,880
Unrealized (loss) on investments - (net of expense of \$618)	-	33,267	33,267
Spendable amount	<u>150</u>	<u>(150)</u>	<u>-</u>
Endowment net assets - end of year	<u>\$ 3,881</u>	<u>\$ 128,266</u>	<u>\$ 132,147</u>

Changes in the endowment net assets as of **June 30, 2020** are shown as follows:

	Net assets without donor restrictions	Net assets held in perpetuity	Total
Endowment net assets - beginning of year	\$ 3,500	\$ 95,706	\$ 99,206
Unrealized gain on investments - (net of expense of \$486)		(326)	(326)

**NOTE 10 – AGREEMENTS**

The Foundation is under contract with Sacramento Municipal Utility District (SMUD) to perform the tasks required to operate the "Sacramento Shade Program", which includes the planting and stewardship of a prescribed number of energy saving shade trees. The current contract was extended for four years beginning January 1, 2019. The agreement may be terminated by mutual agreement or terminated by SMUD at any time with written notice. Under the terms of the agreement, SMUD reimburses the Foundation for all personnel and other necessary costs that the Foundation incurs in connection with the performance of the agreement. All expenses submitted to SMUD by the Foundation under this agreement are subject to audit by SMUD for the duration of the contract and for a period of three years thereafter. The Foundation recognized \$1,009,889 and \$1,008,427 of revenue from this agreement in the year ended June 30, 2021 and 2020 respectively.

The Foundation has an agreement with the 501(c) Agencies Trust which allows the Foundation to self-fund their trust account, and opt out of state unemployment tax, as permitted by federal law. Any unemployment costs associated with separated employees are paid out of the Foundation's trust balance. The balance in this account was \$15,956 and \$22,221 as of June 30, 2021 and 2020 respectively, and is reflected as a long-term other asset on the statement of financial position.

**NOTE 11 – EMPLOYEE BENEFIT PLAN**

The Foundation maintains a retirement plan under the provisions of Internal Revenue Code Section 403(b) covering all eligible employees, as defined in the Plan agreement. The Foundation does not contribute to the plan.

**NOTE 12 – SUBSEQUENT EVENT**

As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which are likely to impact the Foundation. Fortunately, the Foundation has been able to meet its tree delivery goals by using a hybrid approach of tree siting (google earth and physical). The majority of employees are currently working from home, with the exceptions of our nursery workers, restoration tree technicians as well as our urban wood rescue team.

Subsequent events have been reviewed through September 7, 2021, the date the financial statements were available to be issued. Management concluded that no material subsequent events have occurred since June 30, 2021 that requires recognition or disclosure in the financial statements.
